Date 06/28/16

CLASS SPECIFICATION

Title: MOTOR EQUIPMENT OPERATOR II

Approved:

GENERAL STATEMENT OF DUTIES: Performs work of more than average difficulty in the operation of one or more types of heavy motorized equipment and performs supervisory tasks in connection with such operations; does related work as required.

DISTINGUISHING FEATURES OF THE CLASS: An employee in this class utilizes considerable skill in manipulating heavy motorized equipment and pays constant attention to the safety of operation in order to prevent accidents. Assignments are made and employees are directly supervised by crew chiefs or other supervisors. Standard procedures are followed and work is inspected periodically for safety and economy of operation. This class differs from that of Motor Equipment Operator I since a significantly greater degree of skill is required to operate various pieces of farm and construction equipment and the consequence of error in the form of damage to the equipment is greater. In most cases, working accessories are operated while the vehicle is in motion which requires a substantial degree of coordination with the motion of the vehicle by manipulating several controls. Complex, special purpose equipment requiring special skills may be included in this class. This employee may serve as a working supervisor.

EXAMPLES OF WORK: (Illustrative only)

- Drives vehicles and pulls trailers in accordance with the Department of Transportation's Commercial Driver's License Class A (CDL-A) guidelines;
- Operates a bulldozer to move earth, clear land, do rough grading, or other related activities;
- Operates a front-end loader for loading earth and materials on trucks, for moving earth, and for doing rough grading work;
- Operates a pneumatic backhoe to load earth and other materials on trucks, digs trenches without grading control, and performs other types of general excavation work;
- Operates a snow plow for removal of snow from roads and other designated areas;
- Operates a roller to compact earth or roll mesquite;
- Inspects, cleans, lubricates, changes oil, and makes minor repairs on equipment;
- Proficiently operates and maintains all types of sewer cleaning equipment including jet rod trucks, jet/vac combination trucks, mechanical rod trucks, and other equipment used to maintain the sanitary sewer collection system and its components;
- Follows and enforces recommended safety practices and uses appropriate traffic safety devices in accordance with state and county regulations;
