

## Building Safety Month 2018

Building Safety Month is presented with the International Code Council (ICC), a member-focused association dedicated to helping the building safety community and construction industry provide safe, sustainable and resilient construction through the development of codes and standards used in the design, build and compliance process.

New Castle County is happy to participate in the 2018 Building Safety Month to provide education for the public about solutions that improve safety, sustainability and resiliency of buildings, infrastructure and communities. This recognition unites industries, associations, academia and government under a common goal to protect the public by creating a safe and resilient built environment.

# Building Codes Save Lives

This main theme is supported by five core themes that will be highlighted throughout May of 2018, including,

**Week One // May 4—9a.m. to 3 p.m.**

**Partnering with Code Officials to Build Stronger, Safer Communities**

Join NCC Land Use staff for “Customer Appreciation and Education Day”. The event will feature giveaways, snacks, educational displays and building officials on hand.

**Week Two // May 8—9 a.m. to 10 a.m. and  
May 10—2p.m. to 3p.m.**

**Advancing Resilient Communities Through  
Science & Technology**

Participate in “Technology and Land Use Services” with free demonstrations and training on Land Use Online Services.

**Week Three // May 16—9 a.m. to 3 p.m.**

**Protecting Communities from Disasters**

Participate in “Disaster Preparedness Day” and learn about NCC’s Office of Emergency Management and steps to prepare for disasters.

**Week Four // May 23—9 a.m. to 3 p.m.**

**Safeguarding Our Water**

Learn about NCC’s GREEN NCC initiative and how the community can promote water conservation and efficiency.

**Week Five // May 27—31, 2018**

**Improving Education & Training Standards for a Safer Tomorrow**

NCC Land Use staff will visit local vo-tech high schools and introduce the ICC’s High School Technical Training Program and talk with preschool children on water conservation and how code officials are building a safer today for a stronger tomorrow.
